PROFILE

I am a detail-oriented Frontend Software Engineer dedicated to perfecting every aspect of user interfaces. My passion for crafting exceptional designs and enhancing user experiences drives me to innovate within web development. With a focus on pixel-perfect precision and a blend of creativity and technical expertise, I consistently deliver captivating and intuitive interfaces that meet the highest professional standards

EDUCATION

Bachelor of Science in Software Engineering

PMAS ARID University RWP - BIMS
Year of Graduation: SPRING- 2025

HSSC in Computer Science - ICS

IMPCC   H-8/4
Graduation: 2019 - 2021

SKILLS

React JS
NODE JS/EXPRESS JS
MONGO DB
JAVASCRIPT
TAILWIND/CSS
HTML
GIT/GITHUB
C++

INTEREST

Designed and developed numerous Front-End projects that reflect my expertise in web development

LANGUAGE

Urdu
English

PROFESSIONAL EXPERIENCE

VirtuoByte

Frontend - Developer | Nov 2023 - March 2024

Tech Stack: REACT JS, JAVASCRIPT, TAILWIND CSS

- Successfully achieved project milestones and surpassed client satisfaction through the punctual delivery of top-tier, error-free code.
- Fostered seamless collaboration with the backend development team to integrate APIs flawlessly, optimizing data flow and bolstering application functionality.
- Demonstrated proactive problem-solving skills by swiftly identifying and resolving intricate technical challenges, thereby upholding the stability and dependability of vital applications.
- Engaged in constructive code review sessions to uphold coding standards rigorously and maintain high-quality codebase integrity throughout the organization.

PROJECTS

AARASTA   **Project Link**
Tech Stack: REACT JS, JAVASCRIPT, TAILWIND CSS

- Collaborated closely with local businesses to understand their unique needs and requirements, customizing the app to cater to their specific products and services.
- Designed and implemented a user-friendly search and navigation system, optimizing product discovery and accessibility for app users.

HooBank App   **Project Link**
Tech Stack: REACT JS, TAILWIND CSS

- Create a user-friendly, imaginative design for a banking website, inspired by the elements showcased.
- Develop the fictional banking application to showcase the integration of React components with a visually appealing user interface.

GPT-3 App   **Project Link**
Tech Stack: REACT JS, TAILWIND CSS

- Create an elegant design to effectively highlight the services.
- Design and implement a user-friendly navigation bar, and include the sponsored links.
